

****Rather complete online? Go to www.metc.net/permission-to-bury**

Fiber Installation Permission Agreement

We are requesting your permission to bury a communications service line to your home or business. This form gives permission to bury a direct line from the road to your building. Before burying the line, a technician will come and perform a site inspection at your convenience.

Completing this form gives you a choice of service providers in the future but **does not** require you to take our services.

Property Owner _____
